## Piper's Surgery & Adoption

I wanted to take a moment to update you on our current endeavor involving Piper the dog. As you may know, Piper was rescued by the LEASH Rescue Society in Manitoba. She was found abandoned, malnourished and with a litter of puppies. We had the opportunity to meet this beautiful black lab, and realized that we needed to help her. Upon examination, we realized that she required extensive dental surgery and needed a forever home.

The Healing Paws team fell in love with Piper and decided to help her get the treatment she needed. So, an Open House fundraiser was organized for Dec 18<sup>th</sup>. Thanks to the generosity of our amazing clients and the team, we raised over \$600 for Piper's procedure and care!

Dr. Alberto, our expert in dental surgery, performed Piper's surgery on Jan. 9<sup>th</sup>. We are pleased to report it was a success! A special thank you to Dr. Alberto as he donated his time to perform the dental surgery at no cost. As part of our Preventive Oral Care program, Piper will continue be monitored by our team throughout the year for any future dental issues.

We were able to treat Piper and follow through with her adoption due to the generosity of our clients, Dr. Alberto and the Healing Paws team. This success story would not be possible without you. On behalf of Piper, the team and myself, thank you!

We're so happy that our sponsor dog found her forever family! Piper is a lovely girl who has found an equally lovely family to call her own. We are so proud to have teamed up with L.E.A.S.H to get Piper ready for her new lease on life!

### **From The LEASH Society:**

ADOPTED January 2016 - Congratulations Piper!

We knew that it wouldn't take long for this sweet girl to find her forever home and we are happy to announce that she officially has! Carly (right) had previously applied for a couple of dogs that were in our care at the time however they were already pending adoption, and when Healing Paws Veterinary Care held Pipers Meet/Greet & Fundraising night (which just happened to be walking distance from Carly and Martin's home) she wandered over, fell in love and spent the entire evening interacting with Piper. After a secondary meet with Martin included they knew that she was the dog for them. In a follow up email they even stated that they feel like they have hit the "doggy jackpot" with Piper, and are totally in love! We couldn't be happier with Pipes outcome! With the generosity of Healing Paws we were able to get all of Piper's dental issues addressed (thank you again), making her a perfect candidate for a fresh start with a new family! Thank you Carly and Martin for giving Piper her New Leash on Life!
